    Socket <|.. ClientSocket
    Socket <|.. ServerSocket
```

Socket

The diagram illustrates a class hierarchy. At the top is a box labeled 'Socket'. Below it are two boxes, 'ClientSocket' on the left and 'ServerSocket' on the right. A horizontal dotted line connects the two lower boxes, with a vertical dotted line and an upward-pointing arrowhead connecting this line to the bottom center of the 'Socket' box.

ClientSocket

ServerSocket
